AND THE PUBLIC.
AUDITOR'S OFFICE, POST OFFICE DEPARTMENT,

TT HAS BEENLONG THE PRACTICE of this office to pay the drafts drawn and nego-tiated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommoate the contractors, and meet their necessities, in advance of the regular and slower process of pay-ing by the drafts or warrants of the department ing by the drafts or warrants of the department, and was intended only to apply to one draft per route from each contractor for the schole appount, (deducting fines, collections, &c.,) of his quarterly pay; but it has been, and is quite generally so misunderstood, as to be supposed to allow any number of drafts, and for any amount, not exceeding in the aggregate, the contract pay for the quarter. ter. A privilege conceded for accommodation (for it was never anything more) has thus been made to embarrass materially the business of this office, forced upon it the settlement of the private ac-counts of contractors, and thrown upon the exchanges of the country, with a quasi sanction of this office, a species of paper currency unauthor-

PROSPECTUS OF THE NORTH CAROLINA STATESMAN.

THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defeat principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we proserve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same great work.

Although mainly devoted to the discussion of such registed any sections are the register.

Although mainly devoted to the discussion of such political questions, as they arise, which affect the welfare of North Carolinn, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which eur commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall always command their fullest attention. To this they propose to add carefully selected and original perience, in that progress, which p vancement of the interests of North Carolina.

The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sus-

tained by it as a political journal.

1st. Our purpose being to publish a paper purely di 1st. Our purpose being to publish a paper purely de-mocratic, according to the straightest requirements of that party, we shall advocate strict party organi-zation in its fullest and most comprehensive sense an organization which originates in the popular will, expressed by the people in their primary as semblies, and which has been so successfully in troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing commanding respect and obedience; an organiza-tion of the people, and not of intriguers; restoring power to those who, by sufferance, have tolerated

power to those who, by sufferance, have tolerated its temporary usurpation.

2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good old State rights platform of '93, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the rights r any other measure inconsistent with the right

of the States.

3d. Believing that the platform adopted by the 3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy.

4th. They will advocate all such measures of internal improvement as promise by judicious prosecution to promote the interests of the people and diffuse the benefits of a system already enjoyed by nortions of the State.

diffuse the benefits of a system already enjoyed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in reliation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the accessed of their sales to the new propriating the proceeds of their sales to the pay ment of the public debt, and the expenses of the ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall prefest against it, and assert the right of the old States to their equitable state of the lead which the requirements. their equitable share of the lands which remain. The power to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do that it has become the settled policy of Congress to squader the to squander the public lands, we adopt the patri-otic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Caro-lina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national bonor.

With a new and superb map of the United States, engraved on steel.

The publishers take pleasure in announcing the completion of this, the most elaborate, comprehensive, and perfect Gazetteer of the United States that has ever issued from the press. In its preparation no considerations of expense or labor have been allowed to interfere with a work designed to be as perfect as possible in every department, and in all of its detail. Nor have the successive issues of other Gazetteers, burried through the press to claim the market tempted the publishers to offer their book before all the ample census (of 1850) and other material in the hands of the editors were fully digested and accu-

When the Gazetteer was first announced 800 pages, or at the most 900, were designed as the limit of the book. But so vast was the amount of matter, accumulated through the personal labors of the editors and their assistants, as well as through the active efforts of several thousand correspondents in all parts of the United States, the work has swelled to near 1,300 pages. The amount of new matter which it contains, all of a recent character, is very large, and in many instances embracing statistics and populations to 1853. This gives it an intrinsic value over every other work of the kind in existence.

We therefore offer our Gazetteer confidently, as the only complete and thoroughly reliable Gazetteer of the United States yet published.

As above stated, the work is now ready, and will be published in December, 1853. Price to subscribers. \$3 50; to non-subscribers, \$4.
